What are the key risks that are specific to the Issuer?

In purchasing the Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified a number of factors which could materially adversely affect its business and ability to make payments due.

These factors include:

-risks relating to the Issuer's activities, such as (i) credit risk, relating to the creditworthiness of the Issuer's customers and counterparties, (ii) risk of money laundering, terrorist financing and other illegal or improper activities and their impact on the Issuer and (iii) cyber security risk, relating to the Issuer's exposure to the potential of loss or harm related to technical infrastructure or the use of technology within the Issuer's organisation;

-risks relating to the Issuer's structure and funding requirements, such as (i) concentration risk, relating to the Issuer's geographical concentration and the concentration of its business and key clients and (ii) liquidity risk, relating to the Issuer's ability to meet the current and future liquidity requirements;

-risks relating to the regulatory environment and the market, such as (i) regulatory risk, relating to the impact of the current and future regulatory developments on the Issuer, (ii) market risk, relating to the risks linked to the fluctuations of market prices and (iii) infectious disease risk, relating to the impact of an outbreak of an infectious disease (such as Covid-19) on the Issuer's businesses and the markets in which it operates.

KEY INFORMATION ON THE SECURITIES

What are the main features of the securities?

The currency of this Series of Notes is Euro. The Notes have a Specified Denomination of EUR 1,000.

Rating

The Programme has been rated A- by Standard & Poor's and A2 by Moody's.

Restrictions on transferability

Not applicable - There are no restrictions on the free transferability of the Notes.

Status and Ranking

The Notes constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and will rank *pari passu* among themselves.

Taxation

All payments in respect of the Notes will be made without deduction for or on account of withholding taxes imposed by Grand Duchy of Luxembourg. In the event that any such deduction is made, the Issuer will, save in certain limited circumstances, be required to pay additional amounts to cover the amounts so deducted.

Issuer's negative pledge

The Notes do not contain any negative pledge

Save as provided below, the terms of the Notes will not contain any events of default which could lead to an acceleration of the Notes.

(a) *Liquidation*: If any order is made by any competent court or resolution passed for the Liquidation of the Issuer and such order is continuing, then any Notes may, unless there has been a resolution to the contrary at a Masse Meeting, by written notice addressed by the Noteholder thereof to the Issuer and delivered to the Issuer or to the specified office of the Fiscal Agent, be declared immediately due and payable, whereupon the Early Redemption Amount of such Note together (if applicable) with accrued interest to the date of payment shall become immediately due and payable.

(b) *Non-Payment*: If default is made in the payment of any interest or principal due in respect of the Notes and such default continues for a period of seven days or more after the due date then any Noteholder may ask the relevant authorities to institute Liquidation or reprieve from payment (*sursis de paiement*) proceedings in Luxembourg (but not elsewhere) in accordance with Part II of the Resolution Law in respect of the Issuer (together the "**Non-Payment Proceedings**"). Although the relevant authorities may take into account a request from a Noteholder to institute the Non-Payment Proceedings, they are not in any way bound to do so following the receipt of such a request or on any other basis. In determining whether to institute any such Non-Payment Proceedings against the Issuer, the relevant authorities will act solely on the basis of their own discretion and in accordance with Luxembourg law. Without prejudice to such request from a Noteholder as described in this Condition 11(b)(ii), a Noteholder shall not be able to take proceedings for the Liquidation of the Issuer.

(c) *Breach of Other Obligations*: To the extent permitted by applicable law and by these Conditions, a Noteholder may at its discretion institute such proceedings against the Issuer as it may think fit to enforce any obligation, condition, undertaking or provision binding on the Issuer under the Notes (other

than any payment obligation of the Issuer under or arising from the Notes, including, without limitation, payment of any principal or interest); *provided always* that such Noteholder shall not enforce, and shall not be entitled to enforce or otherwise claim, against the Issuer any judgment or other award given in such proceedings that requires the payment of money by the Issuer, whether by way of damages or otherwise, except by proving in the relevant Non-Payment Proceedings.

Substitution and Variation

If an MREL Eligibility Event, a Rating Methodology Event, an Alignment Event or Tax Event occurs and is continuing, the Issuer may, at its option (subject to obtaining relevant supervisory permission, if required), substitute the Notes, or vary the Conditions, without any requirement for the consent or approval of Noteholders, so that they are substituted for, or varied to become or remain, qualifying notes. Noteholders shall be deemed to approve and accept the substitution or variation of the terms of the Notes and to grant to the Issuer full power and authority to take any action and/or to execute and deliver any document in the name and/or on behalf of the Noteholders which is necessary or convenient to complete the substitution or variation of the terms of the Notes.

Meetings

The terms of the Notes will contain provisions for calling meetings of holders of the Notes to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority. The exercise of collective rights and decisions of Noteholders and meetings of Noteholders are subject to the provisions of articles 470-3 to 470-19 of the Luxembourg Companies Act 1915. Pursuant to the Luxembourg Companies Act 1915, Noteholders will belong to a masse created, among other things, for the representation of their common interests pursuant to the provisions of the Luxembourg Companies Act 1915.

Governing law

Luxembourg law.

Interest

The "**Interest Amount**" in respect of an Interest Period shall be an amount (which may never be less than zero) calculated by the Calculation Agent equal to:

- (a) If an Interest Barrier Event occurs in respect of such Interest Period:

(Calculation Amount x Coupon Rate x Day count Fraction) + Unpaid Interest

; or

- (b) otherwise, zero.

For the purpose of this section:

"**Calculation Amount**" means EUR 1,000.

"**Coupon Rate**" means 10.00 per cent. Per annum.

"**Day Count Fraction**" means 30/360.

"**Interest Barrier Event**" means if the Settlement Price in respect of the Valuation Date relating to the relevant Interest Period is greater than or equal to the Interest Barrier Level.

"**Interest Barrier Level**" is 60 %.

"**Settlement Price**" means as set out in Condition 22

"Unpaid Interest" means, in respect of an Interest Period: (a) if Memory Effect applies, the sum of, in respect of each prior Interest Period for which an Interest Barrier Event did not occur, subject as provided below (a "Relevant Period") Interest Amounts that would have been payable in respect of each principal amount of Notes equal to the Calculation Amount and each such Relevant Period if an Interest Barrier Event had occurred in respect of each such Relevant Period provided that there shall be excluded from the definition of Relevant Period any Interest Period already accounted for in relation to any previous Interest Period under this definition of Unpaid Interest; or (b) if Memory Effect does not apply, zero.

"Valuation Date(s)" means 5 Exchange Business Days prior to each Automatic Early Redemption Date .

The Notes are intended to provide a return in the form of conditional interest payments and either a cash or physical delivery amount at maturity. The timing and amount of these payments will depend on the performance of a basket of shares.

If the performance of each share is equal to or greater than a specified interest barrier level of 60 % on the relevant valuation date preceding an interest payment date then interest will be payable on that interest payment date at a rate of 10.00 per cent per annum but not otherwise. The amount of interest will be calculated by reference to the relevant interest period that ended and any previous interest periods for which interest has not been paid.

On each specified automatic early redemption valuation date if the performance of each share is greater than a specified automatic early redemption level of 100 % then the Notes will early redeem on the next automatic early redemption date at the specified automatic early redemption amount of EUR 1,000 per Note. If no such automatic early redemption event has occurred then at scheduled maturity the Notes will be redeemed by (a) payment of the calculation amount of EUR 1,000 for each Note or if the performance of any share on the specified final valuation date is less than its relevant Barrier Level of 60 % then (b) physical delivery of the worst performing share in the basket. The number of the worst performing shares deliverable in this case will be determined by dividing the calculation amount of EUR 1,000 for a Note (converted into the relevant quotation currency of the worst performing shares) by the strike price of 100 % multiplied by the initial share price for that worst performing share. Shares will be delivered in an integral number with a cash amount being payable for any fraction of a share equal to the final share price multiplied by that fraction.

Redemption

The Notes will be redeemable early at the option of the Issuer prior to maturity for tax reasons (subject to Conditions),

or upon the occurrence of an MREL Disqualification Event (in the case of), such redemption being permitted by applicable MREL Regulations and subject to the Issuer obtaining Supervisory Permission therefor.

Representative of holders

Not Applicable – No representative of the Noteholders has been appointed by the Issuer.

Under the terms of the Notes, certain dates may be adjusted if the date specified is either not a business day or not a trading day. Any adjustments may affect the return (if any) received by the Noteholders. The terms of the Notes also provide that if certain exceptional events occur (1) adjustments may be made to the Notes and/or (2) the Issuer may terminate the Notes early. These events principally relate to the underlyings (Goodyear Tire & Rubber Co/The , Cie Generale des Etablissements Michelin , Continental AG) , the Notes and the Issuer. The return (if any) received by the Noteholders on such early termination is likely to be different from the scenarios described above and may be less than the amount invested by the Noteholders..

Where will the securities be traded?

The Notes are not intended to be admitted to trading on any market.

What are the key risks that are specific to the securities?

There are also risks associated with the Notes, including:

- *risks related to the particular nature of the Notes, such as*
 - (i) risk that the Notes are subject to bail-in, (ii) risk that the Noteholders suffer loss of their entire investment (as the Issuer is not prohibited from issuing additional debt, which may rank *pari passu* or senior to the Notes), (iii) risk of early redemption by the Issuer exercised prior to maturity, and (vi) risk of substitution and variation of the Notes exercised without Noteholders' consent, (v) risks relating to no event of default (other than in limited events such as a liquidation of the Issuer) allowing acceleration of the Notes;

- *risks relating to the specific product type:*
 - (i) risk of limitation of the market value of the Notes following the Issuer's right to redeem any Notes at its option and risk of not being able to reinvest the redemption proceeds in a manner which achieves a similar effective return; and

 - (ii) risk of exposure to volatility risks, leverage risks or performance of the share risks, [(ii)] risk of market disruption and adjustments affecting the value and liquidity of the Notes and positioning due dates for payment; [and]
 - (iii) risk of exposure to specific risks linked to the occurrence of a Settlement Disruption Event;

- *risks relating to regulation of the Notes and the financial markets generally, such as*
 - (i) assigned credit ratings risk, (ii) risk of an illiquid secondary market, (iii) the risk of foreign-exchange volatility, (iv) impact of transaction costs on the stated yield risk, (v) impact of tax on the effective yield of the Notes, (vi) risk relating to the reform and regulation of "benchmarks", (vii) risk of modification of certain provision of the terms of the Note without the consent of all investors, (viii) risk of volatility of the trading market for debt securities, (ix) risk of potential conflicts of interest which could arise where a Dealer acts as a Calculation Agent, (x) risk related to US Dividend Equivalent Withholding and (xi) risk of inability to sell when holding less than the minimum Specified Denomination.
