

Luxembourg, 5th January 2022

BIL launches its new range of banking offers for individual and business clients

Banque Internationale à Luxembourg (BIL) is adapting to changing consumer trends with the launch of its new range of daily banking packages. Streamlined and with more services, these packages are available to clients since 1st January 2022.

Banque Internationale à Luxembourg has carried out a full overhaul of its banking offers, with the focus on simplicity, more services, and competitive fees. For individual clients, the number of packages will be reduced from twelve to four, and for business clients, from nine to five.

BIL offers for individual clients

The new range offers clients the choice of four packages with a variety of bank cards and services. These packages are competitively priced and offer a common set of core services such as the V Pay Visa debit card, unlimited EUR transfers and access to BILnet. Clients can use BIL's online services platform to manage their accounts and carry out numerous transactions themselves, whenever and from wherever they want: transfers, investment management transactions, card activation/deactivation, adjustments to withdrawal and payment limits, etc.

The BIL Direct package is available for online account openings and is free of charge (subject to condition). It includes an unlimited number of instant payments and a VISA Classic* credit card at a preferential rate. For clients looking to a greater range of services, the BIL Gold and BIL Platinum packages include the Visa Gold* and Visa Platinum* credit cards respectively, and the associated range of insurance cover and services. These two packages also include a competitively priced authorised overdraft facility at preferential rates, and access to consumer loans with reduced application fees.

BIL packages for professionals and business clients

For retailers, freelancers and professionals, and companies of any size, the new range includes five packages for the day-to-day banking requirements of professionals and businesses. BIL Pro offers a deposit card, five free transfers and access to the BILnet online banking platform and MultiLine as its starter pack of services. The client can then choose from the enhanced BIL Pro Silver, BIL Pro Gold or BIL Pro Platinum packages depending on the kind of Visa Business card and services they require. It is worth noting that the BIL Pro Payment package includes a payment terminal.

“This new, simplified range of day-to-day banking packages aims to respond to the changing needs of both our individual and business clients. Our aim is to offer clients useful, competitive and innovative services that will make it easier for them to manage their accounts”, states Didier Richter, Head of Daily Banking and Payments, Banque Internationale à Luxembourg.
