A. Execution Factors

Even though BIL holds a membership with Euronext (Brussels, Paris and Amsterdam), client orders were transmitted to Financial Intermediaries for execution which ensured a local settlement and reduced the risk of unsettled trades.

For all other markets, orders on this asset class have been transmitted to Financial Intermediaries for execution on Stock Exchanges. Pursuant to our best execution policy, no orders on listed funds (ETF, ETN and ETC) have been executed OTC.

The relevant factor for the choice of the execution venue is the primary market place, assuming that it is considered as the most liquid market even though market makers, liquidity providers and issuers may provide liquidity on various markets and when applicable to the fund also in different currencies. Orders on this asset class were locally executed and settled, implying that the settlement costs were very low, improved the likelihood of execution and reduced the risk of unsettled trades.

B. Affiliations & Conflicts of Interest

BIL is member of Euronext (Paris, Amsterdam and Brussels). Due to settlement constraints, the membership is not used for the execution of client orders.

BIL has no close links with any other execution venues listed in the execution policy.

No situation of a conflict of interest was detected in 2018 linked to the membership of Euronext.

D. Changes in venue usage

No changes in the order flow were processed in 2018. BIL has neither had changes in venue usage nor experienced factors that would have led to a change in the execution venues listed in its best execution policy.

E. Execution factors specific to client categorisation

BIL does not apply execution factors specific to client categorisation. Order execution does not differ according to client categorisation and BIL does not treat categories of clients differently.

In relation to the client categorisation, the majority of BIL's clients are classified as retail.

F. Situations where price and cost were not the primary execution factors

No specific situation that could be related to a situation where price and costs were not the primary execution factors has occurred in 2018. No other criteria are given precedence over immediate price and cost when executing retail client orders.
