

INVESTOR PROFILE - LEGAL ENTITY

Company name: _____
Represented by: _____
Actor number: _____ *This is a reference starting with the letter Z followed by 7 numbers at the top left-hand corner of your BILnet screen. If necessary, please contact your Relationship manager.*

Our understanding of your investment objectives, risk appetite and level of knowledge as well as your experience in financial instruments and financial markets constitutes a key part of our relationship with you. This makes it possible for us to offer you services and solutions in accordance with your investor profile and required level of protection.

We therefore require information on your financial situation, investment plans and goals and the duration for which you are prepared to hold your investments. Risk tolerance may vary from risk capacity, which is determined by the financial situation of the legal entity.

With this in mind, we have created this questionnaire to determine your investor profile and assess whether a financial instrument or transaction is appropriate for you in light of its risks and characteristics. It is therefore essential that you answer each of the questions hereafter and inform us of any subsequent changes to the information provided.

This questionnaire should be completed by the legal representative(s) of the company who is/are responsible for investment decisions and who is/are empowered to instruct investment transactions on behalf of the company. We would like to draw your attention to the legal disclaimer at the end of this document and recommend that it is read carefully.

The information disclosed to us in this document will be treated in a strictly confidential manner.

Part 1 - Knowledge and experience

Please complete this section based on your knowledge and experience of investment products.

1.1. How do you usually take your investment decisions?

- We are well informed and take investment decisions independently.
- We are well informed and seek professional advice before taking a decision independently.
- We usually rely on professional advice.
- We usually delegate the management of our assets/investments to a professional.

1.3. Are you aware that the exchange rate of foreign currencies may have an impact on the value of your portfolio?

- Yes
- No

1.4. Do the persons responsible for investments in your company follow the financial news?

- Yes
- No

Part 2 - Assessment of risk tolerance

Please complete this section based on the level of risk tolerance of your company.

2.1. What is your main objective for investing in financial markets?

- Preservation of capital: minor exposure to market risks
- Secure investment: low exposure to market risks
- Medium-term growth: moderate exposure to market risks
- Performance objective: substantial exposure to market risks

2.2. What is your timeframe for achieving your investment objectives?

- Less than 2 years
- 2 to 5 years
- 5 to 10 years
- More than 10 years

2.3. How would investments be split between the following two instruments, taking into consideration their potential annual yield?

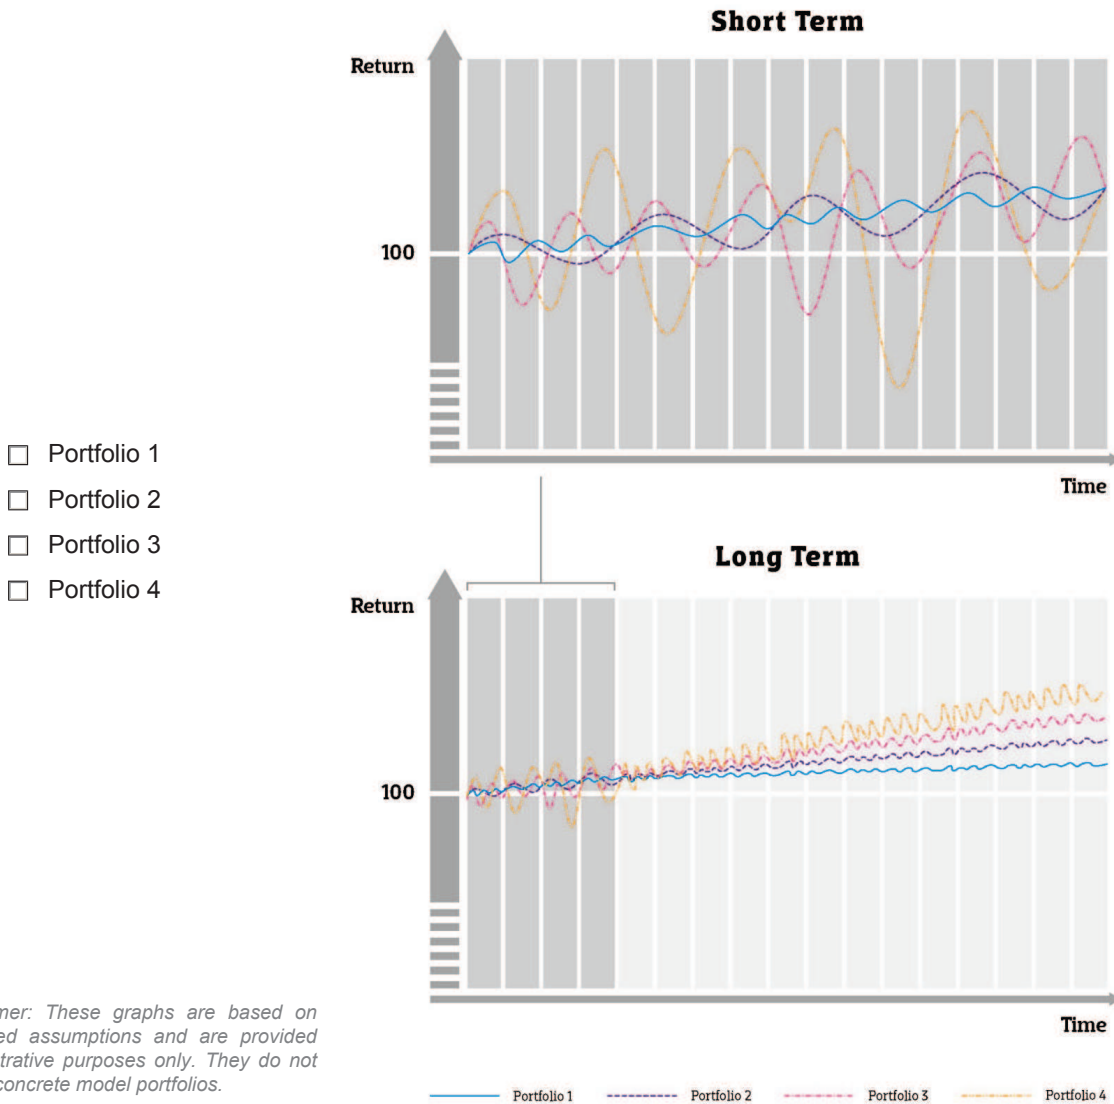

Disclaimer: These ranges are based on simplified assumptions and are provided for illustrative purposes only. They do not reflect concrete model portfolios.

- 100% in type A instruments
- 75% in type A and 25% in type B instruments
- 50% in type A and 50% in type B instruments
- 25% in type A and 75% in type B instruments
- 100% in type B instruments

2.4. The below graphs represent the short and long-term fluctuation of four portfolios, from a low to a high level of fluctuation. Investments that fluctuate more generally offer greater long-term growth opportunities but they may also produce greater losses.

Which portfolio would be selected in order to reach your investment goals?

Disclaimer: These graphs are based on simplified assumptions and are provided for illustrative purposes only. They do not reflect concrete model portfolios.

2.5. Attitude to risk: the value of one of your investments decreases significantly. What is your likely reaction?

- We decrease our risk by selling off our position in part or in whole.
- We decrease our risk if the situation does not improve.
- We do nothing and wait for the situation to improve.
- We take advantage of the situation to increase our position.

2.6. Which level of annual fluctuation are you comfortable with?

- We are seeking a return of 2% and we accept that the value of the portfolio can fluctuate by 8% (positively or negatively).
- We are seeking a return of 4% and we accept that the value of the portfolio can fluctuate by 16% (positively or negatively).
- We are seeking a return of 6% and we accept that the value of the portfolio can fluctuate by 24% (positively or negatively).
- We are seeking a return of 10% and we accept that the value of the portfolio can fluctuate by more than 24% (positively or negatively).

Part 3 - Assessment of your financial situation and risk capacity

Please complete this section based on the financial situation and risk capacity of your company.

3.1. Total assets

	Less than EUR 250,000	EUR 250,000 - EUR 1,000,000	EUR 1,000,000 - EUR 5,000,000	Over EUR 5,000,000
Total assets	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

3.2. What proportion of your total assets (including cash) have you chosen to entrust to our bank?

- Less than 25%
- Between 25% and 50%
- Between 50% and 75%
- More than 75%

3.3. What is your average monthly revenue (income, interest, etc.)?

- Less than EUR 100,000
- Between EUR 100,000 and EUR 250,000
